Level:	Level 5
Reports to:	Chief Executive Officer
Direct reports:	Between one and four
Financial delegations:	None

BERL kaupapa

Te uaratanga – Mission

BERL is passionate about realising the potential of people and their communities. Our approach is to inform decision makers by understanding problems, collecting evidence and applying economics. BERL's commitment is to the wellbeing of current and future generations.

Te whakakitenga – Vision

We will develop our current strengths and find new ways to offer value.

Ngā uara – Values

BERL's overriding value is commitment to wellbeing. In addition to the quality of the skills we offer, we will achieve influence by embracing and practicing these core values:

- Ngākau pono Integrity
- Manaakitanga Respect
- Mōhiotanga Knowledge
- Whaihua Relevance
- Panekiretanga Achievement.

Role purpose and scope

The Deputy Chief Economist is responsible for providing specialist, strategic, and high-level economic advice, either individually or in support of the Chief Economist. They will ensure appropriate systems and frameworks are in place for sound economic principles to be applied rigorously and consistently in BERL's decision-making and project deliverables. They will work closely with the Chief Executive Officer, Chief Economist, and Principal Consultants to set the strategic direction and support the development and implementation of a business plan. They will also initiate new product development to expand brand image. They will represent BERL in the public arena, which may include speaking with media and presenting at conferences.

The Deputy Chief Economist will work to identify and develop potential project opportunities and maintain strong client relationships. The Deputy Chief Economist will manage staff, and their performance, professional development, and day to day work. The role of the Deputy Chief Economist is also to lead projects from scope development, research method design, task management, including data collection and analysis. As research leads, they will project manage, and as management team members, they will lead senior and junior consultants, and undertake peer review and mentoring.

Deputy Chief Economists have specialist expertise in the area of economics, as well as research and policy development. They will be expected to demonstrate high levels of skills and competency in their area of expertise.

Key functions and responsibilities

Key Deputy Chief Economist functions and responsibilities will include:

- Leading projects and project teams in their areas of expertise
- Managing projects and day-to-day interactions with clients and project team members
- Acting as peer reviewer where appropriate
- Managing staff; including their performance and professional development
- Mentor, manage and/or advise staff in the organisation to promote high quality economic analysis
- Staying up to date on research issues and market trends
- Being part of management team, supporting strategic direction and development, and business plan development
- Developing business relationships with a diverse client portfolio
- Undertaking public speaking, presentations, media interviews, and related communication activities
- Maintaining knowledge, and subject matter and technical expertise
- Undertaking office and administrative functions.

Knowledge, experience, and qualifications

Specific knowledge, experience, and qualifications:

- A graduate degree, preferably a post graduate degree, plus related experience in economics, preferably in a consulting or advisory environment (5+ years)
- Ability to lead and work across multiple projects
- Demonstrated ability to write to deadline for professional and popular audiences in a credible, succinct, and accessible manner
- Demonstrated experience in developing innovative research products and conducting rigorous analysis
- · Confident communication skills, including ability to speak to public audiences and the media
- Strong interpersonal skills, including stakeholder engagement and client relationship building
- Ability to lead senior and junior team members and support the wider management team
- Demonstrated technical skills and experience in areas of expertise, including economics, research, and policy development, including (but not limited to) knowledge of and experience with:
 - o A range of research methodologies
 - o A wide range of economic and business issues
 - o Management frameworks, financial analysis, and diverse business operations
 - o Providing high-quality strategic advice to support decision-makers
 - Working across all areas of the policy cycle.
